Using the mark

- Always lowercase. The trailing dot is always Muted Maize — never recolor it.
- It's custom artwork: don't retype it, restyle it, or set it in another font.
- Give it clear space of at least the height of the dot on every side.
- Navy on light backgrounds; cream on navy. Avoid busy photo backgrounds.
- It's the logo. Headlines elsewhere use Space Grotesk; body uses Atkinson Hyperlegible.
