

bumbl logo assets

Which file to use where. All are SVG: sharp at any size, recolor with one fill change.

bumbl-mascot-navy-clean.svg

Full character on light backgrounds. Hero art, website, print, swag. This is the canonical mascot.

bumbl-mascot-cream.svg

Full character on dark or navy backgrounds. Same art, reversed.

bumbl-avatar-navy.svg

Self-contained badge: white mascot in a navy circle. Social profile pictures and app tiles, about 40px and up.

bumbl-avatar-cream.svg

Badge with a cream circle. Profile use on dark or busy photo backgrounds.

bumbl-favicon-navy-circle.svg

The tiny one. Reads clearly down to 16px. Browser tabs and small app icons. Use this when it gets small.

bumbl-favicon-navy.svg

Simplified face (glasses, brow, smile) on light backgrounds where you do not want a circle.

bumbl-favicon-cream.svg

Simplified face for dark backgrounds.

Pairing rules: navy on cream, cream on navy, navy or white on maize. The mascot is one color, so it sits on any brand background. Keep clear space around it and do not recolor individual parts. The **bumbl** wordmark is separate custom artwork (in the brand kit) and is never retyped.
